## TO SUBSCRIBERS.

Parties who do not receive their papers, or who have any cause for complaint, will oblige The Bonanza by notifying this office.

## NO REWARD.

A reward of \$10 will be paid for information that will lead to the arrest and conviction of parties stealing The Bonanza from subscribers.

All legal advertisements will be charged for at the rate of \$2.00 per square for the first insertion. There will be no exception to this rate. No affidavit of publication will be made until the advertisement is paid for.

No advertising cut, one square inch or smaller, will be accepted unless made of metal. No wood base cuts this size will be used. Wood cuts are dangerous to forms and press.

Entered at the postoffice in Tonopah as second-class matter.

## THE REPUBLICAN PROGRAM

YESTERDAY'S dispatches tell of a very serious dissension in the Democratic ranks over the stamp tax measure. Many Democrats are prepared to make a hard fight against the system. This is but one of the "rifts within the lute" that threaten the party's music.

While the administration and its supporters have been casting about for a means to raise revenue by direct taxation, the Republicans have their program in readiness. It is a simple one, but it will provide fully for revenue when the war ends and Europe will threaten to flood the United States with its products, and that program is a high protective tariff. It is the only sane and simple remedy for the conditions that would otherwise prevail after the pact of peace is signed.

## WEALTH LIES AT DEPTH

THE recent development in the Tonopah Extension, reference to which was made in yesterday's Bonanza, are of vital and impelling interest to all Tonopah people and to all who have money invested in this district. It is demonstrated that the crest of the ledge system follows the contour of the surface to the westward and that there is no diminution of either strength or wealth of the ledges, all that is necessary being to go to greater depth. The Bonanza reiterates its frequently made prophecy that westward the course of mineralization takes its way and the time is near at hand when there will either be a West Tonopah built up or a system of street railways built for the conveyance of ore and passengers.

## DEMAND FOR CIRCULATING MEDIA

ONE cannot help wondering how much longer the imports of gold by the United States at the present rate can last without absolutely draining the European nations of specie. This gold will, of course, be replaced by fiat money, by subsidiary silver coins and paper promises to pay.

To a considerable extent the European nations can reduce their war indebtedness by placing mint marks on silver that represent twice its intrinsic value. These subsidiary coins could be made legal tender for obligations to the government and even then no loss would be sustained.

It is assured that there will be an enormous coinage of silver at the close of the war and the mines producing the white metal will prove to be most excellent investments.

## BLANKET THE HORSES ALSO

IT is noted during this cold weather that every automobile left standing on Tonopah's streets has a blanket over its radiator. The machine comes to a halt panting and steaming from its efforts. There is danger that unless a blanket is thrown over the hood the delicate organism will be injured by the cold.

By the side of such an auto stand a team of horses that have tugged their heavy burden up the icy street. It may be an hour or more before they are again called into service. They are steaming and panting as was the machine upon which its owner bestowed such kindly care. The mechanism of a horse is just as delicate as that of an automobile, but he is not blanketed. Perhaps it is because he costs less than the inanimate piece of machinery.

## MAKING BUSINESS FRIENDS

WHEN you send your dollar off to some mail order house or distant store, you get what you pay for and no more. The fluffy haired girl who handles it cares nothing for you. The merchant whom you helped to enrich never hears of you. The transaction has no aftermath, except possibly the effort to return an unsatisfactory purchase.

When you buy goods at home you make business ties. The proprietor and his clerks want to keep your trade and will return your favors in any way that they can. A consistent policy of home buying creates a circle of loyal business friends. If you are in trade for yourself in your home town, this is absolutely necessary to success. And it is exceedingly helpful to anyone else.

Success comes largely by favor. Many people wonder how some fellows get along so easily. Usually there is no magic secret about it. They have been trying all their lives to make friends. If they have anything to sell, whether a line of merchandise or personal services, a host of their neighbors around them are glad to turn things their way. Buy goods in one's home town is the simplest and easiest way to create helpful business relations. And it costs nothing.

## OUR SHAME IN MEXICO

SIXTEEN more American lives have been sacrificed to the administration's ignominious Mexican policy—a policy which has shattered American prestige and made a mockery of the protection which any self-respecting nation is supposed to extend to its citizens when they go abroad.

Month by month the position of Americans in Mexico has become more perilous. Mexican contempt for the flabbiness of American diplomacy increased with each unpunished outrage, each backdown from demands which meant nothing. Today a Cuban, a Guatemalan, a Japanese, even a Chinaman, is safer in Mexico, is better protected by respect for a foreign flag, than is an American.

Are they to be the last challenge of the kind flung in our faces? They should be. Were congress not in session it might be impossible to stir the administration out of its lethargy. The president might continue to back and fill, insisting that this country is too unready to intervene, too proud to fight to avenge its citizens, vindicate its rights and restore its prestige.

But congress and the spirit of the country expressing itself through congress have now become live factors in American policy. The country is weary of the utter futility which for three years past has marked our dealings with Mexico. It wants a change—a change back to stalwart Americanism, to the Americanism which demands complete respect for our flag and our citizenship.

## KINDERGARTEN SCHOOL HANGS IN ABEYANCE

(Continued from Page 1.)

this state may, upon petition of the parents or guardians of twenty-five or more children between the ages of four or six years, residing within such school district, establish, equip, and maintain a kindergarten or kindergartens. The board of school trustees of every school district in which a kindergarten is established under the provisions of this act shall, at least fifteen days before the month in which the board of county commissioners is required by law to levy the taxes required for county purposes, submit to the board of county commissioners an estimate of funds necessary for the establishment, equipment, and maintenance of such a kindergarten or kindergartens in their districts; and, if sufficient funds for the same are not available in the school funds of such school district, the said board of county commissioners shall have power to direct that a special tax, not to exceed twenty-five cents on the hundred dollars of assessed valuation of such district,

shall be levied; and upon notification by the clerk of the board of trustees of such school district that such action has been taken, the board of county commissioners shall levy and cause to be collected such tax upon the taxable property of the district. The fund so levied shall be known as the kindergarten fund of such school district (as the case may be), and shall be available for the equipment and maintenance of the kindergarten or kindergartens established under the provisions of this section, and the moneys drawn from such fund shall be paid out in the same manner as moneys from the state and county school funds for the maintenance of the elementary schools are drawn and paid out. If the average daily attendance in any kindergarten in any school district shall be ten or less for the school year, the governing body for such school district shall, at the close of such school year discontinue such kindergarten. In case a kindergarten shall be discontinued, as provided by this section, the property and funds of such kindergarten shall immediately revert to the elementary schools of the school district in which said kindergarten has been located.

Sec. 2. This act shall take effect immediately upon its passage.
